Selectmen's Report

We herewith submit our report of the financial affairs of the Town for the year ending February 14th, 1914.

While the itemized account shows the financial condition there are a few things that we would mention. The item for concrete sidewalks is large but there was nothing laid out on them last year, and very little the year before, therefore they were in bad condition and by re-covering the old we save twenty-five cents per yard from what it would cost if they were left another year. They were practically all re-built or re-covered except on Agassiz St. from M. H. Chamberlin's to Agassiz Hill, and this would have been done but it got so cold that the men would not stay longer. The contractor will come in the spring to finish the work if the Selectmen want him and we would recommend that it be done.

Owing to a wash-out at Alder Brook it was necessary to build a bank wall to retain the road and prevent further damage and we thought it advisable while everything was there to do with to change the road and put in a six-foot stone and concrete culvert to take the place of the one hundred foot wooden bridge which would have to be renewed within a year or two. It was too late to complete the work but the culvert was built ready for the concrete covering and it will not be a great expense to finish it in the spring. The Excelsior Wrapper Co., owners of the Alder Brook Mill property, paid \$450 toward the expense of putting in the bank wall.

The expense of the Town building is more this year than it will be another, as, taking it new, we had to put in a good many things, and the insurance--\$340--will not have to be paid again for three years. Gen. Cruft has generously contributed \$300 towards the maintenance and we save the \$100 rent we have

had to pay before. The Library and reading rooms are greatly appreciated by our own as well as by the summer people.

You will note that we have cut out of the assests everything but cash assets, simply giving a list of property owned by the town, and would suggest that this policy be continued.

There are no out-standing orders and every bill against the town, so far as we know, has been presented and paid.

At the request of several citizens of the town and summer residents the Selectmen have passed the following ordinance and hope it may be enforced.

"Hereafter it shall be unlawful for any person to place or cause to be placed, any sign, bill or advertisement of any kind on any tree, pole, fence, rock, or elsewhere within the limits of any public highway in the aforesaid Town of Bethlehem, except with the written consent of the Selectmen of said Town first had and obtained, and then only in accordance with such specifications as may be prescribed by them."

"Any person may remove and destroy any such sign found within the limits of any such highway in violation of this Ordinance."

BILLS PAID

MISCELLANEOUS

| | |
|---|--------|
| Benjamin Tucker, making and recording deed | \$ 90 |
| W. J. Randolph, recording deed | 62 |
| E. C. Eastman, warrants, blanks and book | 3 34 |

MYRON L. JACKSON, Treasurer

Auditor's Report

I hereby certify that I have examined the accounts of the commissioners and treasurer of the Bethlehem Village Precinct Water Department and find proper vouchers for all bills paid and a balance of \$501 52 in the hands of the treasurer. I find sinking fund as reported by the treasurer, \$1,779 27, correct.

WILLIAM M. FOGG, Auditor

ANNUAL REPORT
OF THE
Town School District
FOR THE
Fiscal Year Ending February 14, 1914

Superintendent's Report

School Board of Bethlehem Town District :

In presenting this first annual report as your superintendent, let me note that it covers only one term and six weeks of another. During that time I have made 36 visits in the four schools. Probably at every visit some suggestion tending to greater efficiency has been made. The teachers report attendance to me at the end of each week and on Monday they are notified of the standing of each rural school and their rank among all the schools of the district. Every month report is made of the teaching done and plans for the coming month. This is a strong incentive to better work and tends toward uniformity. By order of your board, geographies have been changed and other text books needed have been bought to the total amount of \$40.00. Carefully selected reading matter to the amount of a little over \$45.00 has been obtained and put in service. Paper and other supplies costing \$13.50 have been bought. The total expense with which I am connected is just under \$100.00. Two hundred dollars was raised and a larger part of it might well be used to equip the schools. That once done a much smaller amount each year would be needed. A traveling library from the American Humane Education Society has been secured for use the rest of this term and in the spring.

The faithful efforts of your teachers and, with few exceptions, the faithful attendance of the children are worthy of note. The general condition of the equipment may best be noted by comparing it with the minimum outfit suggested by the Department of Public Instruction. Of the ordinary text books you have a fair supply, but of reading material you still have less than the minimum requirement, although I do the best I can by exchanging readers among the schools. And each school ought to have its own library. Children learn to read by reading, and they ought to have a great deal to practice on. We want them to read aloud well, but it is by silent reading that we do most of our learning. Your children are not near a public library and many of them have few books in their homes. They will never learn to read as well as they ought unless the school supplies the means.

All the schools have globes, but maps are lacking at one. Slate blackboards for every running foot of wall space are recommended. Only one of your school houses now in use has any. Ventilating stoves with provision for moisture, clocks and thermometers are on the minimum list. Your schools are not provided with these things. As in most old-fashioned school houses the light is insufficient and badly distributed. It should be from the left or left and rear only and window space should be at least one square foot for every five square feet of floor. It is suggested by the state department that adjustable single furniture be supplied as rapidly as possible. There is none in your schools.

Plenty of fresh water and suitable places for washing as well as drinking are recommended. The arrangements for drinking in your buildings are primitive and there are practically none for washing. Each building has separate closets for the sexes but the arrangements are doubtless capable of some improvement. Probably, running water could be brought to every school house without difficulty.

You have much to be gratified with in your schools as they are. By knowing what more is needed and taking definite steps each year, your schools may be brought rapidly to a high degree of efficiency. In regard to text books, supplies

and apparatus, matters which come most completely under the care of the superintendent, I recommend an appropriation of \$100.00 in addition to the unexpended balance of last year's appropriation.

Respectfully submitted,

D. F. CARPENTER.

Library Report

The Bethlehem Public Library opened in its present quarters July 1, 1913, with 1500 volumes.

Immediate additions of popular fiction were made to meet the public demand.

The lack of reference books are very noticeable to many who visited the library, so much so that several of the summer visitors offered substantial aid so that the most needed volumes could be purchased.

Mrs. E. M. W. Smith, check for \$25.00. Rev. Dr. Mills illustrated lecture on China and Japan, proceeds \$41.50. Hermann Rosenthal of the New York Public Library read a paper on Russian Literature, collection, \$19.10.

The employees of Maplewood hotel under the supervision of Mrs. Leon H. Cilley gave an entertainment, proceeds of which were about \$200.00. This money was placed in the hands of General Cruft to select and purchase books for the Bethlehem Public Library, the greater number of which are already on the shelves.

C. A. KIDDER, Librarian.

List of New Books

Standard Dictionary ; Atlas, Set of Shakespeare, 20 volumes ; Abraham Lincoln 8 volumes, Oxford Book of English Verse, Book of Precious Stones, Coming China, Panama Gateway, Harper's Camping and Scouting, Harper's Outdoor Book, Harper's Indoor Book, Harper's Book for Young Naturalists, Harper's Electricity Book for Boys, Harper's Wireless Book, Wood Working for Beginners, Promised Land, Story of Great Inventions, Dictionary of Phrase and Fable, Hand Book of Curious Information, Bartlett's Quotations, Poems of American History, Handy Natural History and How to Know Wild Flowers.
